An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Buck on 9/17/04.

Withdrawn claims 17-47 have been canceled.

The following is an examiner's statement of reasons for allowance:

The cited prior art fails to teach or anticipate a glucose biosensor with one, two or three of the claimed amino acid substitutions.

In the 8/10/04 Office action, claims 6-9 were indicated as defining over the art of record. Applicants' incorporated the limitations of these claims into their corresponding parent claims in new claims 48-61. The Office has reconsidered the subject matter of original claim 10 and believes it defines over the as it requires 3 substitutions as indicated above. Applicants' have rewritten the limitations of original claim 10 as new claims 62-68.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
